We offer a wide variety of corrugated boxes from brown to custom made. We can customize to nearly any size and configuration with all levels of custom print.

Standard Box - Miscellaneous sizes and shapes, including cube and tall, conforming to your industry standard sizes.

Die Cut – Specifically engineered shapes which are precision cut to meet exacting product requirements up to 240" box length.

Flutes and Grades – A, B, C, E, E/B flutes with single face, single wall, double wall, and triple wall grade options available.

Direct Print / one to multicolor – Directly print on one or multiple sides of packaging. Fast drying environmentally safe inks are available in a multiple of colors for single or multicolor requirements.

Plain box – Study corrugated fiberboard boxes devoid of any printing or markings. Sturdy in construction these boxes are ideal for non-descript storage and will support postproduction labeling or printing if desired.

Pre-Patterned – Patterned design printed directly on the corrugated boxes during production. The options for customizing a corrugated box to meet a specific industry requirement or tie into a company market branding campaign are readily available.

Measurements:

Box measurements always correspond to the inner dimensions of the box unless otherwise specified. This is done to ensure a snug and protective fit around your product. The size of your contents actually determines the inner box dimensions. Simply measure the Length (L) x Width (W) x Depth (D) (or height).

Dimensions are based on the opening of an assembled box. Looking at the opening, the longer of the two sides is considered the “Length”. The shorter of the two sides is the “Width”. The side perpendicular to the “Length” and “Width” is the “Depth” of the box.
